Geo. W. Jenkins, editor of the Santa Maria "Times," Cal., in speaking of the various ailments of children said: "When my children have croup there is only one patent medicine that I ever use, and that is Chamberlain's Cough Remedy. It possesses some medical properties that relieve the little sufferers immediately. It is, in my opinion, the best cough medicine in the market." If this remedy is freely given as soon as the croupy cough appears it will prevent the attack. It is also an ideal remedy for whooping cough. There is no danger in giving it to children, as it contains nothing injurious. For sale by A. C. Ireland, jr.

An amusing story comes from the studios of Paris. In many of the impresdonist schools of artists washing blue is largely employed to produce the tints which will best convey mysterious and which will best convey hysterious and esthetic effects. A young actist lately took two of his newest inspirations, in which starch had been largely consumed, to one of the well known dealers in Paris and the latter, pitying rather than admiring, offered a small sum for both pieces and consented to place them on show.
